DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Schlipfenbacher et al. (USPN 5,110,550).

Schlipfenbacher discloses a test carrier for the analytical determination of a component of a liquid sample that comprises a liquid transport means (col. 5, lines 39-51) to pass a fluid to a detection region operable to provide a test signal indicative of the presence and/or amount of an analyte in the liquid sample (col. 5, lines 39-51). Schlipfenbacher detection regions shows a positive signal (color change) which is an equivalent to an interactive symbol. Schlipfenbacher device has a casing (12) having a window therein.
